

SOUTHERN CONNECTICUT STATE UNIVERSITY

New Haven, Connecticut

University Administration Building Site, Road & Parking Lot Design

AI Engineers, Inc. performed the topographic survey and preparation of the design to convert an area near the University Administration Building into a 50 space parking lot with access to the adjacent buildings. The site work included providing a roadway from existing road network to the new parking lot, drainage system, sidewalks and outside lighting for the parking lot, and other building areas.

SALIENT FEATURES

- Traffic Analysis
- Site Design / Parking Lot Layout
- Storm Drainage System
- Outside Lighting
- Topographic Survey

Duration: 2000-2001

*Owner: Connecticut State University
